

ADR - DRIVER TRAINING

Accord européen relative au transport international des marchandises Dangereuses par Route" (ADR) requires drivers of hazardous goods vehicles to attend a formally recognised and approved training course every five years.

The training must be appropriate to the product and mode of transport with the objective of simplifying international cross border trade.

Pen Driver Training is accredited and approved by SQA to provide and deliver ADR training.

Our experienced instructors provide a professional and quality driven approach, resulting in a high delegate pass rate.

- SQA approved ADR Driver Training
- CT3 Refresher courses over two days
- 7 Hours can be credited towards CPC
- Full Initial and Full Refresher training are also available

As a legal training requirement, modules of the ADR syllabus and qualification can be offered on either a refresher or initial basis.

- CT3 Initial - 14 hours Credited Drivers CPC
- CTP 2 or 3 Initial - 7 Hours Credited Drivers CPC
- Our quality training courses are delivered by experienced and helpful instructors, ensuring the highest levels of customer and candidate satisfaction.

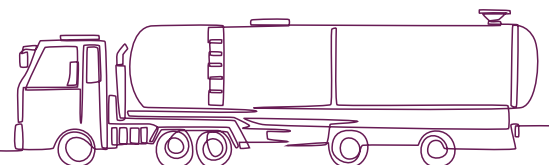

Our courses are run regularly at our registered training locations across the UK. Courses can also be held at your premises subject to SQA requirements.

ABOUT DRIVER TRAINING

At Pen Underwriting we don't just want to be there when something goes wrong, we want to help businesses prevent it from going wrong in the first place.

That's why we offer specialist training courses for drivers in the hazardous goods & general haulage industries, its customers, suppliers and contractors.

Pen has provided specialist driver training for over twenty years, has trained thousands of candidates and organised hundreds of training days each year both in the UK and internationally. All our services are delivered by in-house specialists, supported by a network of associates who have expertise in their field and have practical in-depth experience of the industry.

THE SAFE AND PROFESSIONAL APPROACH

Pen Driver Training, has a high regard for working closely with all our clients and candidates to provide quality training and personal support.

- High level of support to all candidates
- Excellent training facilities
- Quality key course content
- High examination pass rate
- Minimal Operational downtime
- Credits towards CPC
- Regular updates to all parties
- Supported by industry experts

TESTIMONIALS

“ We use Pen Driver Training for all our CPC/PDP/ADR and also driver assessment training, as we know they offer a very professional and competitive all round training package to keep ourselves compliant with the ever changing legislation within the industry.

All of their instructors are friendly, informative, helpful and very experienced. They give us peace of mind that when they conduct their training, they have the most up to date legislative/compliance training methods and that all of our employees are trained to the industry standard.

It gives us confidence that when we put our training requirements to Pen Driver Training, we know that our employees (mostly tanker drivers) are trained to the highest level and are comfortable that they can carry out the tasks and duties that are required of them with the utmost professionalism, and with the guidance they have received without having any operational or environmental issues.

I would recommend anyone within the fuel distribution industry to use Pen Driver Training for their training requirements so then can receive the same level of Service and Training that we have received over the last 5 years.

Operations Director - Oil 4 Wales
