

# DEFENSIVE DRIVING - DRIVER TRAINING

Drive down your operating costs with our one to one in the cab training day which may reduce drivers' risk to themselves and others, as well as giving them the knowledge to meet current legislation.

Certificate of Professional Competence (CPC) Pen Defensive Driver training is aimed at drivers of LGV vehicles and helps to identify, prevent and rectify driving behaviour. It also gives drivers an opportunity to think positively about driving and the company's profile. This day's training does not affect your day to day business, as our trainer goes out with the driver on a one to one basis while they complete their normal days' work.

The aim is to encourage candidates to identify areas of strength as well as weakness, encouraging a change in attitude to reduce both risks and fuel costs to the company due to accidents and high maintenance of vehicles.

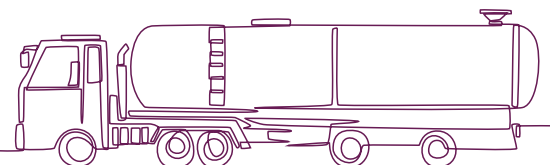

## THE SAFE AND PROFESSIONAL APPROACH

Pen Driver Training has a high regard for working closely with all our clients and candidates to provide quality training and personal support. Our Courses, although tailored to our clients' specific objectives, all deal with the core best practices for:

- Hazard Recognition
- Causes of road accidents and how to avoid them
- Use of speed - is it inappropriate?
- Driver attitude and behaviour
- Stress and fatigue - how to reduce or avoid it
- Confidence building (for nervous drivers)
- Dealing with aggression and road rage
- Vehicle sympathy
- Fuel and tyre economy
- Vehicle Loading and Load Security
- Parking - selection of parking places and positioning in them
- Legislation (smoking, phones, parking restrictions)

Guiding your drivers to always employ best practice can provide your company with the following benefits:

- Reduction in Fuel costs
- Reduction in Vehicle off Road costs
- Reduction in Insurance Costs
- Reduction in Working Time lost
- Reduction in Profits lost
- Reduction in Customers lost

## COURSE DURATION
