ACTURIS

HOW DOES THIS PRODUCT COMPARE TO A “STANDARD” OFFERING?

Property is the most common e-traded product so finding something different - or placing risks that are 'different' can be hard.

At Pen, we pride ourselves on differentiation. That's why we offer solutions for general as well as niche and non-standard risks for both commercial and residential properties.

You'll find our product on Acturis, plus, for the right opportunity we can build a bespoke product:

- To your specification e.g. a white-labelled product available only to your brokers through the software house of your choice.
- For your own quote and buy administration system.
- For broker panels, where we can support common policy wordings or provide our own.

As e-trading specialists, being easy to do business with is built into everything we do, and for supporting brokers we can offer premium flex. Our E-Trade products are also supported by dedicated Property Owners underwriters on referral cases.

For your client, we aim to add value wherever we can, so we offer pro-rata refunds for cancellations, which means your client will get back a % of the premium price if they need to cancel part way through the policy.

WHY DO BUSINESS WITH PEN?

Pen Underwriting (Pen) is a multi-class, multi-territory Managing General Agent (MGA).

When we set up Pen in 2014, we brought together some of the UK's best known and most respected underwriting businesses, many with decades of underwriting expertise.

From a 'super start-up' of a dozen or so brands, to a single cohesive £650m GWP business, we're setting our sights on our next milestone – with a bold new vision to become a £1bn GWP underwriting & distribution business.

Over the last six years, the businesses have integrated to form one single operation that had broad distribution and acted like an insurer, responsible for everything apart from the capital at risk.

In 2021, with the majority of the integration work done, and with Pen operating as a single business, Pen is redefining itself – not as the business it thought it might become, but as something even better – the business the market needs it to be.

Our values – IDEAS, AGILITY, CONNECTING, FULFILMENT and SOLVING – are built on strong foundations.
